What makes your financial projections and market/industry research so special?

Our financial projections and market/industry research are hand crafted to suit each customer's specific circumstances and reflect attributes that investors find appealing. All elements are considered in our preparation – Porter's Five Forces, SWOT Analysis, PESTEL Analysis to mention a few.

Our financial projections have Statement of Financial Position (Balance Sheets) that balance; Cash Flows, Statement of Profit or Loss and Other Comprehensive Income (Income Statement) and Statement of Financial Position (Balance Sheets) that tie together. Sensitivity Analysis can be done on our fully assumption-driven financial projections.

How does the process work?

Every service render is unique. But our standard process includes but not limited to the following:

- Discuss with you to understand your basic needs.
- Provide you with our forms for you to complete which will depend on your need.
- Review your existing materials (draft business plans, financials, market research, competitor research etc.)
- After examination of existing materials, we would have a follow-up discussion to clarify details and agree upon the scope and fees for the project.
- Have several in-depth discussions to better understand the details, develop strategies, and agree on all major elements of the project.
- Conduct additional research as needed.
- Project Execution.
- Draft necessary reports and/or letters and review it with you to ensure that all parties are on the same page (if needed)
- Finalise all deliverables
- Project Close-out report will be delivered
- A meeting will be held to discuss the Project Close-out report.

How long does it take?

This usually depends on many factors like how the project is structured, the quality of your existing materials, the level of your participation, the complexity of your market and business model and our current workload.

However, a typical engagement which consists of Industry, Market & Competitor Research, Strategy Development, Investor Presentation etc. usually takes 6-8 weeks. Some simple projects take a just few days while some can take a year or more.

We accept “Rush jobs” at additional costs. We typically work on multiple projects any point in time and usually schedule these projects, so Rush jobs distort our schedules or inconvenience other clients, and they need to be compensated by offering discounts.

Will you agree with everything I say?

Although they say that the “Customer is always right”, our job is to help you avoid mistakes. We will challenge your ideas and assumptions so that you will be prepared for unexpected challenges in your business or the project.

Do you have after-sales service?

We will remain available at no extra costs to provide advice; make changes to the documents we gave you and answer any follow-up questions you may have.

Will you sign a non-disclosure agreement?

Yes, we will. We prefer to use a Mutual NDA so that we can also protect our own trade secrets.

Where are you located and how do you work with clients outside of your local area?

We are in Lagos, Nigeria and Reading, UK. However, with the advent of IT, we rely heavily on the phone, e-mail, fax, and online meeting tools.
